

Caring for Gods Acre - Bird Survey for St. John the Baptist – Letton.

Contents:

1. Approach to survey.
2. Listing of Birds Seen.
3. Nesting Observed.
4. Points of Interest.
5. Conclusion.

1. Approach to Survey:

- a) The survey was carried out on three separate occasions covering morning, mid-day and late afternoon.
- b) The numbers of birds given should be read as the maximum number for any single visit without duplicating sightings.
- c) The sightings were taken from the churchyard area, only noting the birds which were subject to the area (except where noted).
- d) Listing given in alphabetical order.
- e) Where obviously paired it is stated
- f) As a general guide some sighting areas have been stated.
